CENTRAL VALLEY REGION**

**NOTICE OF PUBLIC HEARING**

concerning

**RENEWAL OF WASTE DISCHARGE REQUIREMENTS  
(NPDES NO. CA0083771)**

**FOR**

**CITY OF RIO VISTA  
NORTHWEST WASTEWATER TREATMENT PLANT  
SOLANO COUNTY**

The City of Rio Vista (Discharger) owns the Northwest Wastewater Treatment Plant (Facility) and Veolia West Operating Services, Inc is the operator of the Facility. The Facility serves the City of Rio Vista with a population of approximately 3,400, and has the capacity to discharge up to 1.0 million gallons per day of tertiary treated effluent. The United States Environmental Protection Agency and the Central Valley Regional Water Quality Control Board (Central Valley Water Board) have classified this discharge as a major discharge. Tertiary-treated municipal wastewater is discharged to the Sacramento River, a water of the United States, within the Sacramento-San Joaquin Delta.

During the term of the current NPDES permit the Discharger significantly upgraded the Facility resulting in higher quality effluent. This has resulted in the proposed removal of effluent limitations for several constituents. The proposed NPDES Permit renewal also includes new or more stringent effluent limitations for copper, salinity, ammonia, and nitrate plus nitrite.

A public hearing concerning this matter will be held during the Central Valley Water Board meeting, which is scheduled for:
